

# Wall priorities with additional search example:

To search for Wall condition, select Internal > Internal Ratings > Walls Priority.

Choose Options of less than ie. '<'.

In values, select less than 3 to obtain all the 0, 1 and 2 priorities.

	Client	Area		Asset Attribute	Criterion	Value		
	Sydney Water-Orchard Hills	ReservoirInternalRatings		Area	=	Wall	Delet	e
	Sydney Water-Orchard Hills	ReservoirInternalRatings		Priority	<	3	Delet	e
	Search Search Within Results	Step	<b>4</b> – Select S	earch		EN .	- 🎠 🕅 🖬	↓ 13:23 30/06/2011

Add to Search Criteria and select Search.

Once the search results are obtained, another criteria could be selected (ie Ladder platforms < 2) and 'Add to search Criteria'. You could then 'Search within results', and narrow down the tanks that have a poor wall rating and an unsafe ladder platform system (which can be an indicator of poor coating performance)

When deciding which larger tanks to re-coat, Select General > General > Capacity > Value > 15 (ML)

Add to search Criteria, then select Internal > Internal Coatings > Type > Contains > Bitumen

Add to Search Criteria, then select Internal > Internal General > Internal Coatings (benchmark) < 3

#### ASAM Data Management - Online and Accessible

Add to search Criteria and select Search.
